9000

WITTENBORG
 designed to last

ALL THE COFFEE IN THE WORLD

AND MORE BESIDES.

9000

CREAMY BEVERAGES, JUST THE WAY YOU WANT THEM

The innovative brewing system delivers both espresso and fresh brew based drinks combined with a range of instant ingredients. It therefore offers a comprehensive drinks menu to suit every taste: light frothy cappuccino, rich creamy chocolate, authentic Italian espresso and the renowned Wiener Melange, to name just a few of them.

TECHNOLOGY AT YOUR COMMAND

Its intuitive user interface with the capacitive keypad with 10 direct selections and the multicolour display make the 9000 an extremely user-friendly machine. It's a machine that's easy to manage both for operators and technicians, thanks to the same tried and trusted Wittenborg technological platform.

ELEGANT DESIGN

LED lights frame the elegant Scandinavian design, helping to ensure that the machine is both user-friendly and energy efficient. 9000 is an elegant machine that will enhance any environment.

Freshly brewed coffee and espresso with the same brewing system.

Separate delivery points: coffee, chocolate and mixed drinks on the left, water on the right. This prevents cross contamination.

10 buttons Capacitive Keypad and a 4.3" Multicolour Display with RSS feed livens up the selection process by showing pictures and videos.

A light path in the cup area helps ensure that the cup is placed in the correct position. Cup sensors recognize cups or mugs made from a variety of different materials including paper, plastic, glass and porcelain.

Open, wide and well-lit delivery area allows you to fill coffee pots or thermo jugs.

LED lights frame the cup area, enhancing the overall visual appearance and user experience.
